Permit # _____

Date: _____

An *as-built elevation survey* meeting the requirements of Appendix A, Chapter 8, Section 8.03.00 City Code of Ordinances, will be required prior to the framing inspection.

If compliance is to be through flood-proofing in lieu of being elevated then:

- Flood-proofing details must be specific and attached and made part of the sealed drawings.
- Prior to the issuance of the Certificate of Occupancy, a certification by an Engineer or Architect must be submitted which states, "I certify to the best of my knowledge, information, and belief, that the building has been constructed so that the building is watertight, with walls substantially impermeable to the passage of water and structural components having the capability to resist hydrostatic and hydrodynamic loads and effects of buoyancy that would be caused by the flood depths, pressure velocities, impact and uplift forces associated with the base flood."
